Archive: This message is being viewed in an archive.

Dean,

I'm now our PM on the site instead of Kathy.

No call back from Joe on below.

Let me know what info I get from WM that I should make sure you get (e.g., all deliverables???)

Cheers,

Stephen F. Tyahla, P.E., CHMM

Subject: Items due to EPA Today, 1 Feb 2011, re WGSL

Joe,

First, a heads up, that I will be taking over from Kathy Baylor as what we term in the Administrative Order on Consent ("AOC") our "RCRA action officer" or "RAO." A letter will be on it's way in the next day or so.

I'll try calling you this afternoon on this, but I wanted to ensure WM is tracking on the deliverables that are due to us **today, 01 February 2011**. We have seen no requests for any schedule modifications from WM (per para. 81 of the AOC), so are under the impression that these deliverables are on track to be delivered late today.

Here's a brief description of those items with reference to the AOC paragraph (or other reference) that details each requirement:

- Written description of liquids management and treatment for liquids removed from behind the temporary earthen berm at Cell #E6 (para. 19.d. of AOC);
- Work Plan and Schedule for managing the hydraulic head between Cell #E6 and fluids outside the cell to

ensure maintenance of liner integrity (para. 19.e. of AOC);

- Work Plan and Schedule to restore sediment basin system (para. 19.h. of AOC);
- Work Plan and Schedule for ongoing daily beach assessment and recovery of Waste Material (para. 19.i. of AOC);
- Site Health and Safety Plan (para. 21 of AOC); and
- Revised Stormwater Contingency Plan (per condition 4. of EPA's 28 Jan 2011 e-mail to WM approving re-opening of Cell #E6).

I believe this covers the deliverables due today (not including your daily report per para. 24 of the AOC).

I'll try calling you shortly. Also, always feel free to contact me anytime you have questions on any actions or deliverables required under the AOC as you work on them.

Thanks,

Stephen F. Tyahla, P.E., CHMM
